

Collection & Distribution Project Manager – Farmington, NM

Location: Farmington, NM

Category: Operations & Maintenance

Job ID: BI 000FB7

Our People & Places Solutions business – reinforces our drive to improve the lives of people everywhere and epitomizes the “why” of what we do – the tremendous positive impact and value our solutions bring to our communities and society as a whole. From facilities delivering life-saving therapies and ensuring clean water to enabling the connection of people through all modes of transportation and providing access to technology – we’re integrating a multitude of these solution elements to build the smart environments of tomorrow.

Start your Jacobs career with a company that inspires and empowers you to deliver your best work so you can evolve, grow and succeed – today and into tomorrow.

Your Impact:

At Jacobs, we don’t settle – always looking beyond to raise the bar and deliver with excellence. We apply our expertise and knowledge as we look into the future with great optimism and focus. We don’t settle until we give our best and know that we’re making a difference.

Are you a Licensed Wastewater Collections/Water Distribution Operator with Project Manager experience and would like to join our collaborative team in Farmington, NM? You’ll be responsible for the overall management and leadership of the project including profit and loss, permit compliance, safety, quality, and employee supervision and management including staffing, compensation, training and development. Working with other members of our team and the client you’ll build and maintain positive business and customer relationships, and lead the planning, organization, operations, maintenance and improvement of the facility. You’ll also be responsible for implementing safety policy and procedures and maintaining the operation process control including compliance with regulatory agencies.

Bring your team-focus, adaptability, and commitment to excellence, and we’ll help you grow what drives you – and deliver the world’s most challenging Operations Management projects, together.

Here's What You'll Need:

- High school diploma or equivalent
- State ABC Grade 4 or New Mexico Level 4 Operators License, or experience and education to obtain within 1 year
- Advanced experience in in the operation and maintenance of a water distribution and wastewater collections systems
- Experience leading, coaching and supervising a team with a Safety-First mindset
- Proficient performing mathematical calculations associated with pipelines and facilities
- Proficient in Microsoft Office Suite, data management systems and asset management programs
- Valid driver's license with no major infractions

Ideally, You'll Also Have:

- Associates or College degree in Engineering, Environmental Science or Business Administration
- Capable of working independently and maintaining an orderly schedule
- Expertise of the technical aspects of the position
- Demonstrated interpersonal relations and personnel management skills
