

Operator – Eldorado, NM

Location: Santa Fe, NM

Category: Craft/Trades

Job ID: BIN0000YL

Your Impact:

Our People & Places Solutions business – reinforces our drive to improve the lives of people everywhere and epitomizes the “why” of what we do – the tremendous positive impact and value our solutions bring to our communities and society as a whole. From facilities delivering life-saving therapies and ensuring clean water to enabling the connection of people through all modes of transportation and providing access to technology – we’re integrating a multitude of these solution elements to build the smart environments of tomorrow.

Start your Jacobs career with a company that inspires and empowers you to deliver your best work so you can evolve, grow and succeed – today and into tomorrow.

At Jacobs, we challenge what is currently accepted, so we can shape innovative and lasting solutions for tomorrow. Through the delivery of our operations and maintenance services, you’ll make it simpler and more seamless for our municipal clients to operate safely and efficiently, empowering communities to focus on what matters most to them – people.

As an Operator, you’ll join a collaborative team ensuring that our clients can deliver their services – uninterrupted. Based in Eldorado, NM you’ll perform a variety of tasks in the operation and maintenance of a water treatment and distribution system. You’ll contribute to the success of our program with efficient preventive maintenance, establishing and maintaining effective sample procedures of plant operations and effluent, and providing effective solutions to complex challenges that may arise. You’ll diagnose operating problems, make process control adjustments, direct and perform necessary corrective action. You’ll also prepare reports, collect samples, perform laboratory testing, determine proper chemical flow rates, maintain shift logs and perform other duties as required. Most importantly, you’ll take action to ensure the safety, health and well-being of you and your team.

Bring your team-focus, adaptability, and commitment to excellence, and we’ll help you grow what drives you – and deliver the world’s most challenging Operations Management projects, together.

All positions will start as contingent hires for 90 days through our Contingent Labor vendor

Here’s what you’ll need:

- Minimum of a current State of New Mexico Operator License; levels 1, 2, or 3
- 1 years experience operating a water and/or wastewater treatment facility
- Possess a valid driver’s license

Ideally, you'll also have:

- Knowledge of the principles, methods, and tools employed in the general operation of engines, pumps, valves, motors, and related equipment; general maintenance work; safe work practices; principles and methods of biological and chemical sewage analyses, effects and problems of industrial waste in water/wastewater treatment processes, principles of supervision
- Knowledge of computer software including but not limited to Microsoft Office Suite, data management systems and be able to operate plant PLC's and SCADA systems

Working Conditions & Physical Requirements:

Safety is a core value at Jacobs. We are committed to providing a safe and healthy workplace for all employees. This position will spend a substantial amount of time performing safety sensitive labor or services. Due to the nature of the job passing a Fitness for Duty testing is required to ensure candidates for this position are physically and functionally fit to perform the essential physical work functions of this safety sensitive position without posing a direct threat to the health or safety of themselves or others.

The physical and environmental demands required to perform the essential duties of this position include standing, walking, sitting, coordination, balance and agility demands, which may include the ability to stoop, kneel, squat, grasp, reach, perform repetitive hand movements. Additional demands may involve a specific level of dexterity, grip strength, climbing and cardiorespiratory demands. The work areas may be indoor, outdoor, have loud noise, active machinery, high pressure fluid systems, electrical equipment, confined spaces, heights and depths, fumes, air borne particles, noxious gases, and chemicals. The use of appropriate safety equipment will be mandatory in these areas to prevent hazardous contact.

The base salary range for this position is the following below. Individual pay is determined by work location and additional factors, including job-related skills, experience, and relevant education or training.

Operator in Training – (level 1 certification) \$19.60/hr

Operator – (level 2 certification) \$20.10/hr

Operator – (level 3 certification) \$22.60/hr
