

2023 NMWWA Central School Exhibitors Thank you for your support!

Exhibitor Invitation

NMWWA 2024 Central School
Marriott Pyramid Hotel – Albuquerque, NM
September 9-12, 2024

NMWWA's Central School is a great opportunity for our Water and Wastewater operators and attendees to achieve crucial courses and preparation required for certification.

This School offers intensive material for the operators and classes that are constructed to provide excellent training and information needed in order to advance in their job area.

The NMWWA Central School offers many opportunities for the Vendors to display their products and services. By displaying and having your support at our schools, you will have full access to meet and develop comradeships with all water and wastewater operators from across the State.

If any Exhibitor is interested in helping fund coffee breaks, please contact **Caroline Sanchez**. Thank you
